### Comments about [Kisses EP](#) - Mango

There's music that you can hear for the first time that you don't particularly like (or even hate) that eventually grows on you, and you end up loving it. Then there's music that no sooner have you heard the first few seconds of it, you just know that you're going to love it no matter what. Kisses was this kind of track for me, particularly the Arthur Deep remix and the Original. To me Kisses conveys how it feels to be in love, and really, it just doesn't get any better than that does it? Lollipop Girl is an

amazing track too, didn't exactly have the same effect for me as Kisses did, but still continues that same positive vibe that reflects the sound of Mango. I just can't figure out why this EP hasn't been pressed on Vinyl, because it certainly deserves it!

Russian producer and DJ Mango has been surprising the Dance Music scene for quite a while. His tracks have been played by major DJ's all over the world. Mango is the kind of producer you expect nothing but greatness. Yet, then came his Kisses EP. From the first notes of Lollipop Girl, you instantly recognize that you have a special disk on your hands. The beauty that sprouts through the speakers when you press the PLAY button is difficult to describe. Yet the full prize goes for the track that names the EP: Kisses. This song has such a special sound and ambient that it is impossible not to feel what inspired the artist to make such a masterpiece. I feel truly jealous for the ability this producer has. Congratulations, Mango.
